

**FEATURES & BENEFITS**

The Superior Life® LED lamp is an efficient way to light sockets once traditionally reserved for incandescents and linear fluorescent tubes. They consume up to 80% less energy, thereby significantly reducing operating costs. The superior life hours of this lamp makes it ideal for hard to reach places, reducing maintenance.

- Mercury Free
- No UV
- No Projected Heat

**Dimmable LED** By incorporating advanced circuitry into our LED products, SUPERIOR LIFE® dimmable LED lamps function with switch dimmers just as normal incandescents do by allowing full linear dimming control.

*NOTE: Due to multiple input voltage integrated circuits, some items may not be compatible with dimming devices. These items may not be compatible with all electronic transformers.*
