

# MINI-SPIRAL

## COMPACT FLUORESCENT

Superior Life® Mini-Spiral lamps can fit into a wider range of lighting fixtures, traditionally reserved for smaller lamps. Consuming up to 75% less energy than incandescent lighting, mini-spirals significantly reduce operating costs while providing high lumen output and excellent lumen maintenance.

- **MODIFIED RAPID START TECHNOLOGY**

Lamp life performance is enhanced in applications where lamps are frequently switched on and off.

- **END-OF-LIFE PROTECTION**

Our Superior Life® Mini-Spirals have built in End-of-Life Protection Circuitry to protect the lamps from overheating at the end their life. CFLs without this technology can potentially overheat to the point where the plastics containing the ballast begin to melt causing health and fire hazards.

- **ELECTRONIC BALLAST**
